

excellent value added  
logistics & services

specialized in:

highly efficient multimodal  
infrastructure

plenty of low-cost large plots available

## Meet CONNECTED West-Brabant

An enthusiastic group of prominent logistics service providers, municipalities, a regional secondary vocational educational institute, 2 universities of applied sciences, TKI Dinalog (Dutch Institute for Advanced Logistics) and regional development agency REWIN. We are working closely together and take advantage of each other's expertise and networks. Why? To boost and optimize the business and investment climate in West Brabant.

What makes CONNECTED West-Brabant unique is that we are a true collective with a unified message and goal. We strive to inspire and motivate companies to do business with us. We aim for participating parties throughout the entire logistics playing field to experience the value of our collaboration, motivating interested companies to set up business in West Brabant. By emphasizing the strength of our region, we trigger new parties to connect with us, in the form of collaboration as well as new business ventures. You are more than welcome to join us.
